

**PRESS RELEASE - 29.03.2022**  
**SERIOUS ALLEGATIONS AGAINST SPAIN IN INTERNATIONAL ORGANIZATIONS**

I am sending you this message to inform you of the very serious facts denounced in European organizations and in the United Nations.

We emphasize the allegations based on the Royuela Dossier because of its special gravity, because it documents the activity of an international metamafia created in a Spanish institution.

This metamafia, created in the Prosecutor's Office of the High Court of Justice of Catalonia (the richest autonomous community in Spain at the time), has been denounced for murdering more than 2,220 people in several countries; for drug smuggling in Spain, Italy, France, the Netherlands, Germany and Ireland; for rigging more than 8,600 judicial sentences; for introducing tens of millions of false euros, for money laundering and for many other crimes.

In 2004, the two heads of this Prosecutor's Office were denounced to the Tax Agency for not declaring their fortunes, specifically:

1. Carlos Jiménez Villarejo, Chief Prosecutor of that Prosecutor's Office since 1989 and first Anti-Corruption Prosecutor between 1995 and 2003, had not declared 203,100,084 million, including euros, US dollars and Swiss francs.
2. José María Mena Álvarez, head of this metamafia and successor Chief Prosecutor of the previous one, from 1996 to 2006, had not declared 201,100,060 million, including euros, US dollars and Swiss francs.

The existence of this metamaffia is mainly due to the fact that in Spain there is a high level of impunity of the public authorities, where the major political parties are financed by organized crime, with this metamaffia contributing 10% of its profits to the PSOE since its inception, in exchange for a total cover-up.

For decades, this metamaffia has been providing or managing criminal business to several former PSOE ministers, such as Mariano Fernández Bermejo, Juan Alberto Belloch Julbe, former President José Luis Rodríguez Zapatero, as well as numerous police officers, prosecutors, judges, tax inspectors, forensic doctors, etc.

Pedro Sánchez, current President of Spain, and two ministers: Margarita Robles and

Fernando Grande Marlaska, are covering up the crimes of this metamafia, which has also provided them with tens of millions of euros. The bank movements of these operations are documented in the Royuela Dossier.

We have informed and requested the intervention of several European governments of the activity of this criminal group and its relationship with other organized U.S. groups that seek to change the political regime in Israel and, in the long term, to create a new world order. We have also informed the Government of Israel.

We have denounced these crimes in the European Public Prosecutor's Office where they have been covered up without investigating them, for which the Spanish prosecutor has been denounced before the European Commission. On the other hand, we have denounced in the United Nations the cover-up of 1,128 murders in 2009 and in 2021.

Can international organizations afford to cover up these facts? Can the international press afford to cover up this situation?

You can find the reports and other relevant information on our website [www.contraautoritarismojudicial.org](http://www.contraautoritarismojudicial.org), in English, French, German, Spanish and English.

We hope that you will report these very serious allegations in order to prevent institutions from covering up this organized crime in the institutions. We propose a meeting to provide you with the documentation and explanations you require. The meeting would be attended by a member of the Royuela family, Miguel Bernad (internationally known as the leader of Manos Limpias), Judge Fernando Presencia, and a leader of the alliance of Denunciantes del Autoritarismo Judicial.
